

TRADITION MEETS INNOVATION

Erne Fittings puts their passion and perfectionism into manufacturing pipe fittings for permanent welds – and that for more than 100 years. This has made us to the world's leading supplier of butt-weld fittings and to the sole producer in GCC – with top-notch solutions, outstanding services, and countless of new ideas.

TECHNOLOGY & INNOVATION ENGINEER (W/M/D)

PLACE OF EMPLOYMENT: AL JUBAIL

YOUR ROLE

- Design in the field of special machine construction and fixture construction with a focus on technologies to produce weld-in fittings.
- Independent handling of projects (including creating specifications, technical clarifications, obtaining quotes from suppliers and monitoring deadlines)
- Further development of production processes
- Conducting audits, setting up workshops and participating in TPM projects
- Organization and decision-making in the awarding of external contracts in cooperation with the purchasing department
- Supporting the introduction of new manufacturing technologies
- Working with 2D and 3D CAD systems (PTC Creo Elements/Direct, PTC Creo Parametric, PTC Mathcad)
- Creation of operating instructions
- Strength calculations

YOUR PROFILE

- Completed education in Mechanical Engineering (BTech, BE or equivalent)
- English – B1 (Communication possible, technical terms need to be learned)
- Good 2D and 3D CAD and PC skills are required. The ability to independently perform basic strength calculations is essential. Basic knowledge of hydraulics and pneumatics is beneficial
- Practical design experience, curious, responsible, team player and enjoys tinkering.

YOUR BENEFITS

- Full medical coverage
- Social activities, events and friendly environment
- Internal Trainings and knowledge sharing by experienced employees
